Full-stack developer specializing in AI-powered SaaS platforms and business analytics

EDUCATION

PSG College of Technology

B.E. in Computer Science and Engineering — First Class, CGPA: **8.22**

Coimbatore, India

2021 – 2025

Bharatiya Vidya Bhavan

Class 12th — 98.38%, Cutoff: 197.715 (School Rank: 3rd)

Coimbatore, India

2021

WORK EXPERIENCE

C5i

India

Application Developer

Feb 2025 – Present

- Single-handedly architected **Incivus Lite**, an AI-powered ad analysis platform—delivering production-ready React UI and FastAPI middleware serving as the bridge between frontend and AI analysis engine.
- Architected 25+ RESTful API endpoints with FastAPI for user management, ad analysis, and subscription workflows—integrated with Firebase/Firestore enabling real-time data sync and secure cloud file storage.
- Integrated 4 Google Gemini AI endpoints analyzing 5 compliance metrics (brand compliance, purchase intent, messaging intent, funnel compatibility, channel optimization); implemented smart caching reducing API calls by **60%**.
- Designed tiered SaaS architecture (Lite/Plus/Pro/Enterprise) with dynamic feature-gating—UI and API responses automatically adapt based on subscription, enabling monetization across 4 revenue tiers.
- Contributed to internal tooling projects—built interactive data visualizations using D3.js and GSAP with SVG-based dashboards, and developed Node.js/Express REST APIs with MongoDB for internal data management systems.

AES Technologies

India

Software Development Intern

May 2023 – Jul 2023

- Developed the Reimbursement feature in an HRMS system using Flask framework with backend logic, REST APIs, and database integration.
- Utilized PostgreSQL for employee database management, maintaining records of attendance and payroll; built responsive web interfaces with HTML5 and CSS3.

TECHNICAL SKILLS

- **Languages:** JavaScript, Java,C, Python, SQL, HTML5, CSS3
- **Frontend:** React.js, Vite, Tailwind CSS, D3.js, Responsive Design
- **Backend & AI:** FastAPI, Node.js, Flask, REST APIs, Gemini AI, LLM Integration,AI powered analytics
- **Cloud & Databases:** GCP, AWS, Firebase, PostgreSQL, MongoDB, Supabase,Git,Postman

TECHNICAL PROJECTS

MedScribe AI | *React, FastAPI, Google Gemini, Supabase*

[GitHub](#) | [Product Hunt](#)

- AI-powered medical documentation (**Featured on Product Hunt**) transcribing consultations in Tamil, Telugu, Hindi and generating SOAP notes via Gemini AI.

Retail Chatbot | *MERN, GPT-Neo*

[GitHub](#)

- Customer support chatbot integrated with retail analytics platform leveraging SQL and NLP queries.

Ramaswamy Hospitals | *React, Vite, Bilingual*

[Live](#) | [GitHub](#)

- Professional bilingual hospital website with 9 pages, English/Telugu support, and responsive design.

CERTIFICATIONS & ACHIEVEMENTS

- **AI-Powered Business Analytics** — National University of Singapore , Global Immersion Programme (Jun 2025)
- **Full Stack Python Certificate of Merit** — Indra Institute of Education (Credential ID: IIE/025/2943)
- **Best Paper Award** — ICCI 2024, Stochastic PSO with Bayesian Inference for CNN Hyperparameter Optimization, Springer
